

International Environmental Policy

29 June ? 16 July 2010
Australian National University

International environmental policy has grown dramatically over the last three decades, driven by concern over unprecedented and large-scale global environmental change, including climate change, biodiversity loss, deforestation, marine degradation, and expanding trade and consumption. This course focuses on the theory and practice in this dynamic and rapidly expanding field.

FURTHER INFORMATION>>

THE BASICS:

Tuition: Waived for IARU partner students

Accommodation costs: AUD \$1093
